

ADVANCED PLACEMENT (AP)

The Advanced Placement Program® is a cooperative educational project between secondary schools and colleges and universities. AP, which was developed by the U.S. College Board in 1955, offers students the opportunity to take college level courses while still in high school. Depending on performance, students can earn either university credit or advanced placement (acceptance).

Recognized by Universities Worldwide

- For students considering studying outside their home country, AP can serve as a global credential. Universities in over 100 other countries worldwide recognize AP when making admissions decisions.
- Qualifying AP Exam scores earn university credit in nearly all universities in the United States and Canada.

Each college and university determines its own policies regarding AP Exam scores.

AP COURSES AVAILABLE IN ABBOTSFORD

- Physics 12
- Biology 12
- Chemistry 12

Successful AP students are...

Hard Workers Students are committed to taking ownership of their learning and persevering despite obstacles and challenges.

Inquirers Students develop their natural curiosity. They acquire the skills necessary to conduct inquiry and research and show independence in learning. They actively enjoy learning, and this love of learning will be sustained throughout their lives.

Communicators Students understand and express ideas and information confidently and creatively in various forms of communication. They work effectively and willingly in collaboration with others.

Thinkers Students exercise initiative in applying thinking skills critically and creatively to recognize and approach complex problems, to make reasoned, ethical decisions.
