# TECHNOLOGY CLASSES

Are you the next Jensen Huang, Lisa Su or Bill Gates? Students planning on a future in the technology world can find a number of tech classes in Abbotsford that can help launch their careers.

Graduates from Abbotsford have gone on to GREAT careeers in technology.

- PhD Stanford in Nanophotonics, now Senior Laser Engineer at Apple.
- PhD in Computer Science at UC Berkeley, now working for Google Translate
- Post-Doctorate at MIT in Astrophysics, works with Hubble Telescope
- Engineer from UBC, worked with Rolls Royce detecting engine vibration
- Post Doctorate at Harvard Medical School currently developing nanotechnology for the biomedical field.

Abbotsford School District is an excellent place to learn about technology due to its commitment to offering a wide variety of academic and elective subjects, including specialized programs that cater to students' interests and career goals. Secondary students have the opportunity to enroll in specialty programs that often include technology-focused courses, allowing them to explore areas such as computer science, digital media, and applied design. Each school provides detailed course planning guides, helping students tailor their education to include cutting-edge tech skills. With modern facilities, experienced teachers, and a diverse student body, Abbotsford creates a dynamic and inclusive environment where students can thrive in technology and beyond

FUTURE PROSPECTS?

The future prospects for students studying computing and technology-based fields are incredibly promising, especially with the rapid integration of AI across industries. Tech roles are often remote-friendly, allowing students to work for global companies without relocating. This opens up access to international job markets and diverse teams.

Classes Available

- 3D Design and Drafting for Engineering / Architecture
- Computer Coding / Programming 9, 10, 11, 12
- MakerSpace and Robotics 9,10,11
- Mechatronics 12
- Media Design 9, 10, 11,
- Digital Media Development 12
